PROFESSIONAL PROFILE

Full-stack JavaScript engineer with 5+ years of experience building scalable web, mobile, and desktop applications. Specialized in React, Next.js, TypeScript, and Node.js with a strong focus on frontend performance and clean architecture. Proven track record of measurable impact: Lighthouse scores from 70 to 98%, page load times from 8s to 1s, and API response times reduced by 99% (10s → 102ms). Open source contributor, active technical blogger, and available for mid-level roles — fully bilingual in Spanish and English.

PROFESSIONAL EXPERIENCE

Full Stack Developer
May 2022 – Present

Ensitech · Contractor for GoDaddy Inc. — Nuevo León, MX

- Optimized frontend performance, cutting page load time from **8s to 1s** via memoization, lazy loading, and useCallback — directly improving Core Web Vitals.
- Elevated Lighthouse scores from **70 to 98%** (Performance, Accessibility, Best Practices, SEO) across GoDaddy web properties.
- Optimized critical Node.js/Express endpoints, slashing response times from **10s to 102ms** (~99% improvement).
- Built scalable interfaces with Next.js (SSR & App Router) for high-traffic GoDaddy web properties.
- Introduced Storybook for isolated component development, accelerating design reviews and QA cycles.
- Standardized commit workflow with Husky + lint-staged + commitlint, eliminating formatting errors repo-wide.
- Developed and tested RESTful APIs with Node.js, Express, and TypeScript; E2E and unit testing with Cypress and Jest.

Full Stack Developer Jr.
Oct 2021 – Oct 2022

Netjer Networks · Mexico City, MX

- Built infrastructure monitoring and management tools for top-tier Mexican enterprises including **FEMSA** and **Alcea Group**, enabling real-time detection of service outages and hardware underutilization.

TECHNICAL SKILLS

Core

React · Next.js · TypeScript · Node.js · JavaScript · Express

Frontend & UI

Tailwind CSS · MUI · Storybook · React Native · Electron · Core Web Vitals

Testing & Quality

Cypress · Jest · Postman · Husky · commitlint

DevOps & Cloud

Docker · AWS · GitHub Actions · CI/CD · Nginx · Linux

Databases

MariaDB · MySQL · MongoDB · DynamoDB

Other

Ruby on Rails · REST APIs · Socket.IO

OPEN SOURCE

Universal G-Code Sender
Contributor to the widely-used Java-based CNC machine controller tool used by makers and engineers worldwide.

3D Model Designs
Published open-license 3D models freely available for community use with no restrictions.

EDUCATION

B.Eng. Software Engineering
Universidad Politécnica de Pachuca
2016 – 2020

Frontend Masters

- Designed and deployed CI/CD pipelines automating server provisioning and significantly reducing manual deployment errors.
- Integrated AI-powered automation bots (CloudFabrix) to streamline business workflows and maximize IS hardware usage.
- Administered Linux servers on AWS for deployment and maintenance; customized ERP Odoo to client requirements.

Frontend / Backend Developer

Sep 2019 – Nov 2020

Kioru · Pachuca, MX

- Co-built a national web platform for managing educational institutions (schools, universities) reaching **100,000+ users** across Mexico — contributed REST API endpoints and responsive frontend interfaces.
- Developed React Native mobile apps for enterprise clients **Cotemar** and **Saeko**, delivering cross-platform iOS and Android experiences.
- Built desktop apps with Electron + Material UI; maintained Ruby on Rails APIs; architected 100% open-source infrastructure stacks to minimize client costs.

Advanced training — Netflix-level instructors
CSS Systems · React/Next.js · Fullstack JS

CERTIFICATIONS

Real-time Apps with Socket.IO

RESTful API Dev — Ruby on Rails

API Testing with Postman

Complete SQL Mastery

LANGUAGES

Spanish Native

English Full Professional
